POLIOMYELITIS

By DR. E. M. ROWLAND, M.O.H., Athabasca Health Unit

Recently over 70 cases of poliomyelitis or polio were reported from the Whitehorse region. Generally speaking, the period from July to November is the time when polio cases appear in their greatest numbers. Especially bad are the months of August and September when in Alberta polio cases seem to be most numerous. The severity of these epidemics varies from year to year; in 1945 there were only 19 cases in Alberta; whereas in 1948 there were 380 cases. The disease is not confined to infants as the alternate name, infantile paralysis, suggests, as adults are attacked and paralysis does not always occur Of 1,129 cases which occurred in Alberta during the ten year period, 1940 to 1950, 480 occured in children between the ages of 5 years and 14 years, and 282 cases in people over 20 years of age, males were attacked slightly more than females, and nearly a half of the people that died were over 20 years of age.

No particular group of people escape the disease, and the rural population is just as likely to be attacked as the city dweller and farming families show just as high an incidence of the disease as any other.

Cause

The disease is caused by a virus of which there are several strains; and it has been found in the throat of patients and healthy carriers, excreta of patients, on flies and in sewage. Some authorities are inclined to think the spread is by means of the intestine, that is by taking food or Therefore food or drink contaminated by sewage, flies, or excreta of patients is infective.

Symptoms

These are characterised by headache, drowsiness, irritability when handled, and neck stiffness. There may be pain in one or more limbs which is increased on moving. Convulsions, vomiting and diarrhea sometimes occur Later weakness or paralysis of muscles may occur. People who have tired themselves before the onset of the disease seem to be more likely to get paralysis than others.

Precautionary Measures

During epidemic periods people are advised to observe the following rules:

1. Avoid large gatherings.
2. Keep the bowls regular.
3. If you develop the "flu" or "cold' during the polio epidemic period, go to bed and rest.
4. Avoid over fatigue.
5. Make sure that all the water you drink is either chlorinated or boiled.
6. Avoid chilling the body.
7. Cut travelling to a minimum.
9. Do not swim in polluted streams or stagnant pools.
9. Kill all flies and keep food clean. Keep food covered to prevent flies from coming in contact with it. The proper disposal of garbage also prevents flies breeding.
10. Personal cleanliness—hands should be washed, after going to the toilet. Personal cleanliness will tend to prevent any communicable disease.
11. Do not take children under five years of age off their afternoon nap during the summer months.
12. Call your doctor at the first symptoms of polio.

Grassland News Briefs

Gordon Bracco, who was injured while working on the oil pipe line near Stony Plain, is now reported out of hospital. He is expected to return home soon.

John Onischuk has purchased the quarter section formerly owned by Mrs. Zak. This quarter adjoins Mr. Onischuk's land to the south, and will greatly improve his farm.

On Sunday the Grassland High School boys' team defeated Lac la Biche 9 to 6. Later the girls, after a shaky start, beat the Lac la Biche girls by a comfortable margin.

Frost Wednesday night nipped some early garden stuff, and damaged barley in low lying areas.

Graduation ceremonies took place at the Community Hall on Monday.

Coronation Day was very quiet in Grassland. Many of the people took advantage of the holiday to visit the festivities at Athabasca or Lac la Biche, while others stayed at home, but followed the proceedings in London on the radio.

Dale Mellott left for the city on Friday, to bring home Mrs. Mellott, who has been for some weeks in an Edmonton hospital.

Francis Garnier, with his son Alphense, left for the city on Thursday with John Dmelchuk, and expect to return with their truck which has now been repaired after being damaged in an accident last month.

St. Catherine's Hospital Report

From May 27 to June 3 patients admitted were: Nick Kokotailo, Amesbury; Mrs. Philias St. Jean, Plamondon; Mary Cardinal, Chard; Mrs. Mike Karpetz, Breynat; Mrs. Cecil Cofer, Amesbury; Mrs. R. Stubberfield, Lac la Biche; Kenneth Schryver, Hylo; Annie Boucher, Mile 235; George Kniazky, Noral; Rev. Father Ottorino Casarotto, Mission; W. C. McFarland, Lac la Biche; Mrs. Jessie Fischer, Charron; Gregory Dowhaluk, Blue Jay; Clement Gauthier, Edmonton; John Hendrickson, Rich Lake; George Chamzuk, Jr., Donatville; Juliana Luc, Plamodon; Lynne Breau, Lac la Biche.

BIRTHS

Born to Mr. and Mrs. William Erasmus, Kikino, a daughter, May 30.

To Mr. and Mrs. James McNamara, Boyle, a son, June 1.

To Mr. and Mrs. Donald Plamondon, Wandering River, a daughter, June 1.

To Mr. and Mrs. Steve Warawa, Lac la Biche, a daughter, June 2.

To Mr. and Mrs. Vincent Zevola, Venice, a daughter, June 2.

To Mr. and Mrs. Louis Hamelin, Mile 137, a son, June 3.

Kikino News Briefs

The men are working on their picnic that will be held in July sometime.

Mr. Louie Tremblay, who has been sick for the past three months, now is unable to sit up in bed. They have sent for all his children to come to see him.

Miss Louise Erasmus is back home now after being away for some time.

Mr. and Mrs. Joe Donald and daughter are proud owners of a 1946 Chev car.

Mr. F. Sunce traded his old truck in for a newer gray Ford truck.

Large Crowd Enjoys Singing Contest

KIKINO — There was a singing contest held in the Kikino Community Hall May 22.

First prize went to Mae Thompson, age 15 years, with 109 points. She sang "Your Cheating Heart."

Second prize went to Verna Thompson, age seven years, with 93 points. She sang "If Teardrops Were Pennies."

Third prize went to Mildred Erasmus with 92 points. She sang "I'm A Ladies' Man."

The judges were Mrs. Beryl Wilson and Miss Mary Smith, the school teacher.

A very large crowd attended and they all had a good time. The money that was made goes to the Catholic Church in Kikino.

Two Claims Filed In Traffic Deaths

Two statements of claim totalling $98,864 have been filed in connection with two fatal traffic accidents.

Mrs. Polly Shulko of Lac la Biche filed a claim Friday for $58,114 against Ford Scott of Venice, Alta. Mrs. Shulkos claim stated that on Dec. 30, 1952, her husband, William Shulko, was driving a truck when it was in collison wth a truck owned by Scott on the Edmonton - Lac La Bche highway. Shulko's truck caught fire and he was burned to death.

Kost Bezovie of Shacko, Alta., is suing Marcel C. Joly of St. Paul for $35,750 in coniection with the death of Mrs. Bezovie resulting from collsion between a car in which the woman was riding and a car driven by Joly. The accident occurred Sept. 6, 1952.

Couple Celebrate Golden Wedding

PLAMONDON—The 50th wedding anniversary of Mr. and Mrs. Isadore Gauthier of Plamondon was celebrated on June 2.

The day began with a high mass with all their friends and relatives attending. After mass a baptism was held of their grandchld wth Monseignor Laranger officiating.

Mr. and Mrs. Gauthier were married in 1903 at Lake Leelema, Mich., and came to Alberta in 1906. They have eight children, 43 grandchildren and seven great-grandchildren.

The reception was held in the community hall and their children presented each of them with a gold wrist watch. The address was given by Jeanne and Jeannette Schaub.

Monsiegnor Laranger spoke in honor of this occasion after which Father Ricard and Father St. Arnaud vave a short address.

Songs were sung in the afternoon, and in the evening a large attendance was present at the dance.

Outside visitors were: Monsiegnor Loranger, St. Paul; Mr. and Mrs. Alfred Gauthier and Albert Gauthier, Edmonton; Mr. and Mrs. Prospire Limoges, Edmonton.

Tanker Turns Turtle; Driver Unhurt

DONNELLY HEIGHTS — A 3000-gallon tanker skidding on the muddy road Wednesday into a ditch at Arnold's corner turned turtle. Luckily the driver escaped injury.

The spilled cargo was just like an early visit from Santa Claus to some of the gas buggy owners who were able to help themselves from a miniature pond.

Horse Steals the Limelight from RCMP

Bob, one of the 46 R.C.M.P. horses which took part in the Coronation parade, is here shown stealing the limelight from the colorful constable whose duty it is to ride him during the mounties famed musical ride.

CORONATION ACTIVITIES DRAW LARGE TURN OUT

LAC LA BICHE — The Coronation Day activities were well attended by local citizens. In the afternoon the High School ball teams, both boys and girls, put on an exhibition match with Grassland with Lac la Biche being victorious in both instances. The men's league journeyed to Bonnyville to participate in the two-day sports meet there, and came home with one of the prizes, even though it wasn't the first, it was still well earned considering that there were sixteen teams competing. Hairy Hill took top honors, winning the $450.00 first prize money. Ardmore took the $200.00 second prize, and Lac la Biche the $100.00 third prize. Supporters for the Lac la Biche team on the second day were very few, but they made up in enthuisasm what was lacking in number. Among these were Mrs. E. Kutney, Mrs. H. Lett and Mrs. M. Sawchuck.

The climax of the Coronation Day was the gala fire display in the evening. Crowds gathered at the lake front, just off the dock by the Legion club rooms, long before the scheduled time, to be sure of a good vantage point. The Sea Cadets of the Royal Canadian Ship Exeter, were out to direct traffic, doing an exceptionally good job.

With the first burst of the fireworks display not a few youngsters were a bit startled and awed by a sight they had never witnessed before. However, they relaxed and thoroughly enjoyed themselves as a succession of rockets, pinwheels, Roman candles, flairs, magic fountains and mortars were set off, and between ohs and ahs called for more.

The cannon salute which started off the display was heard as far as Venice, and a forest ranger at the look-out tower in Heart Lake was quite confused when he noticed peculiar flares in the sky, not realizing, of ccurse, that it was the fireworks display. Heart Lake across country is every bit of twenty miles form Lac la Biche.

The ground display was presented through the compliments of the Aurora theatre.

This was the first aerial display of fireworks at Lac la Biche, and the committee in charge is to be commended on the splendid presentation. It is hoped that bigger and better displays will become a part of the town's major celebrating programs now that it's been initiated.

Lac la Biche News Briefs

Mr. and Mrs. F. Schefflemier and family of Castor are visiting their son and daughter-in-law, Mr. and Mrs. L. Schefflemier.

Mr. and Mrs. J. Walsh were week-end visitors of Mr. and Mrs. A. Proctor.

Denny Richards of Edmonton is visiting friends.

Raymond Gardner of Vancouver was a recent visitor.

Miss Joan Kibbie is spending the week-end with friends in Mayerthorpe.

Mr. and Mrs. H. Kibbie, accompanied by friends, spent a few days with Mrs. D. Kibbie and Mr. and Mrs. A. Proctor.

Hylo News Briefs

Miss Donna Grandinetti is home for three weeks' holiday. She is training as a nurse in Edmonton.

Mrs. Pasco Manca went to Morinville to visit her husband last week.

The Home and School Association held a dance on June 4. The attendance was average. All had a grand time.

The Hylo School softball team returned the game which Noral played with them. They won 32-8. They also played the Lac la Biche intermediates, losing 19-18. Well done and better luck next time.

The debate to be sponsored by the Junior 4-H Grain Club is to be held on the 15th of June instead of the 11th as previously stated. Time is 8 p.m. sharp.

The Hylo Junior 4 H Oat Club won the first of three-game series with Craigend Junior 4-H Barley Club. Score was 13-3.

The Hylo softball team won first prize of $15.00 by winning over Normandeau 11-4 at the Briereville picnic. Normandeau took second prize, $7.00.

Financial Report Heard At Meeting

PERRYVALE — The Women's Club held their annual meeting on Wednesday, June 3. The financial report showed receipts of $628.29, an dexpenses $435.49, balance on hand $192.80. During the year June, 1952, to May 30, 1953, donations to charity amounted to $118.00. Donations were made to the Junior Sports, prize money, $15; to the school Christmas treats $35; bench show $3.00; as well as the Salvation Army, Red Cross, Crippled Children and Cancer Fund, $10.00 each, and Overseas Flood Relief $25.00. Flowers, fruit and baby gifts given amounted to $40.26. The club plans to hold a clothing drive for Korean relief.

Anyone wishing to donate good used, clean clothing, is asked to bring it to the hall on Wednesday, July 15, at 2 p.m., when it will be sorted and packed.

Anyone wishing to ship old woolens for blankets is invited to bring their woollens to the Community Hall here on Wednesday, July 15, at 2 p.m. Please have your woollens sorted, wool, knitted woollens and woven woollens, in separate bundles and packed in a strong sack. Seven pounds of wool, knitted woollens or woven woollens is required for each blanket.

LETTER TO LOUISA

Husband Sends Money To Mother While Wife Is Forced To Work

Dear Louisa:

I am a young maried woman, a Christian and have one child. I have had to work all my married life not because I wanted to. My mother keeps my boy and they love him very much.

My mother-in-law is a dictator and her son has to do whatever she says. She even tells him where to work and had him quit a good job to please her.

Although I love my husband, this is causing trouble because I want to live our own way and not hers.

He was in World War II and I worked every day while he was away. I minded my own business and cared for my boy. He saved his money in the army and sent $400 to his mother, not me, while I paid old bills out of mine. I earn as much money for the home as he does.

Broken Hearted Sal.

Answer:

It sounds as though you are getting a pretty raw deal. Of course, if your mother-in-law is an invalid and has no means of support I could understand why he might have sent money to her if he thought she was in need and knew that you were supporting yourself.

But if your mother-in-law is in good health and has some income, there is no excuse to make you work instead of letting you take care of your child and home. And certainly a wife should be consulted about plans rather than blindly following the advice of someone else.

Your husband is evidently one of these boys that mothers sometimes tie to their apron strings and refuse to ever let go. Such mothers cause a great deal of unhappiness because their sons are torn between two loyalties and are so accustomed to doing what mamma says that they keep on doing so from habit.

If you are living with your husband's mother the first thing you had better do is to try and get a home of your own and bring your child home to stay. Be friendly with your mother-in-law but let her understand that you are going to make your own decision and try to make your husband see that marriage is a partnership and a wife is one of the partners and should be treated as such.

Good Luck.

Address your letters to: Louisa, P.O. Box 4430, South Edmonton

Field Day Planned For Swine Breeders At University Of Alberta Farms

EDMONTON—Tuesday, June 16 is the day of the 12th Annual Field Day for the Advanced Registry for Swine. Events are to take place at the Livestock Pavilion, University of Alberta Farms, commencing at 1:30 p.m.

Dr. L. W. McElroy of the University of Alberta will give the address of welcome and Mr. O. S. Longman, the Deputy Minister of Agriculture will bring greetings from the Alberta Department of Agriculture.

An address on the Breeding and Feeding of Pigs for the Consumer's Table will be given by Dr. McElroy, following which will be the announcement of the winners of prizes contributed by Burns and Company for sows making the best general performance on test in 1952-53.

Mr. D. B. Lambroughton, of the Advanced Registry of Swine at Ottawa will speak on "One year's Result with Self-feeders."

"Advanced Registry Carcass Cutting Demonstration" will be given by Mr. M. Syrotuck, Production Services, assisted by E. W. Hertzberg of the Swift Canadian Company.

Chairman for the day will be Mr. Roy Marler of Bremner, who will lead all discussions.

This day has been arranged for all Swine Breeders and all those interested in promoting the Swine Industry, and all interested parties are urged to attend.

What Has Happened To Justice?

Last winter an emotionally unbalanced young white man deliberately walked up to an Edmonton business man and fired a bullet into his head that killed him. He took the life of one man and will die for his crime on the gallows.

In the southern part of the Province an Indian deliberately walked into a cabin room where were five other persons sitting around a hot stove. He threw a jar of gasoline into their midst which immediately exploded, and the lives of these five people were taken in the resulting fire. For takng the lives of these five persons Alex Standing-at-the-Door will serve a ten-year-prison term.

Where is the justice in these cases? Why should one man pay the death penalty for killing one human, and another given ten years for killing five persons? Will he be released in 1963 to kill again?

This is the latest proof in the argument that capital punishment, as practised in Canada is unjust, outmoded and should be outlawed. The maximum sentence for taking the life of another should be life imprisonment. In prison the murderer can be made to live a useful life behind bars where he'll be safe without loss to society.

A Proud Record

Rt. Hon. C. D. Howe, Canada's Minister of Trade and Commerce and Defence Production, has been entrusted with great responsibilitis. Recently he recalled that since he has been a member of Parliament various Liberal administrations, before, during and after the war, have had the responsibility of directing expenditures of a total of $46½ billion. As minister of munitions and supply in the second world war and minister of defence production in the present defence effort, Mr. Howe has probably, more than any man, influenced the tremendous expansion of Canada's trade and industry.

Looking back Mr. Howe takes pride in the way the money was handled. Recently he said, "That huge sum has been spent without a single suggestion that any member of the government or any senior official has profited by so much as a single dollar. Furthermore, no one has proven waste or extravagance or inefficiency relating to a single expenditure made during that period."

The Vitamin Craze

Dr. Maxwell M. Wintrobe, a specialist in the treatment of anemia, says many people would do better to buy meat and vegetables in the grocery store rather than spend money on vitamins. He terms "shot-gun" doses of such food supplements as iron, and other minerals, a waste of money in many cases.

Dr. Wintrobe believes a person has to be "pretty hard up" or a fadist to develop a nutritional defiency these days. "Persons of normal appetite or even slightly subnormal appetite will get all these substances they need in food they eat," he says.

Further, Dr. Wintrobe asserts "There is no justification for the general use of such substances as Vitamin B-12, ascobic acid and copper." In the treatment for anemia, each treatment is designed for a different type. In at least one case, one remedy for anemia is dangerous if used in treating another type. The best advice is therefore to eat a balanced diet, or see a specialist.

Men Of Valor

In the days when the Quakers ruled Pennsylvania, for a period of seventy-five years not a single Quaker was killed by the Indians. One of the reasons is revealed in the experiences of John Woolman, who hearing that some Indians were on the warpath decided that he must pay a visit to other Indians near the fighting. He made the journey, was received with hospitality, gave evidence of good will and returned safely to his home.

The Bible Today

I will instruct thee and teach thee in the way which thou shalt go; I will guide thee with mine eye.—Psalm XXXII; 8.

Why Not More Provincial Highways?

By T. W. PUE

This year the Alberta Government, in giving the Municipal Districts large road grants, are trying to get them to have the money spent on roads designated by a Government road building engineer. The Province no doubt feels that in the past a lot of Municipal district road money has been virtually wasted by spending it on back roads and not trying to build up the main "market" roads in the districts.

Some would argue that as the Provincial Government is contributing in many cases most of the money, they have a right to dictate where it is to be spent. But the authorities in Edmonton are not dictating. They are simply suggesting to the local councils that the services of the Government engineer be used. And if the council, by a majority vote, decides to put the Road Engineer in charge, he then makes the decisions.

T. W. PUE

Now, there is nothing arbitrary or unfair about this. It means that eventually each Municipal District should have a number of good market roads intended to serve all the residents instead of having spotty bits of road work done here and there.

NOT THE ANSWER

This, however, is not the answer. It does not satisfy either the need for good cross-highways for the municipality as a whole or the needs of the individual farmer who can't get out of his own yard to use the good market road.

For instance, in the Municipal District of Lac Ste. Anne the Government engineer wanted to build up a few good market roads feeding into the Edmonton to Whitecourt and Valleyview highway. That road, when completed, will be virtually the Alaska highway and short cut to the great Peace River district and entire north country.

My impression is that what is needed here is a new Provincial highway to connect Highway 43 (Edmonton to Valleyview) with Highway 16 to Jasper and Highway 18 that connects Fort Assiniboine, Barrhead and Westlock.

Why should Municipal funds be used to build a Provincial highway? might well be asked. It is true that a good road connecting Highways 16, 43 and 18 would be invaluable to the tourist, provincial truckers and travellers from one part of the province to another. You can't blame residents of Lac Ste. Anne for feeling resentful of having funds earmarked for municipal roads being spent just to connect up Provincial Highways.

There is another angle about this. People, wherever they are, like to spend their own money. If the Provincial Government, giving as they do, large and liberal grants for the building of municipal roads, have their own men supervise the spending of that money, it is taking from the local council the privilege of running local affairs of government insofar as roads are concerned. And road building accounts for an awful lot of the job of local government.

Governments should never forget that citizens like to have the pleasure of spending their own money in their own way. During the depression Premier Bennett established labor camps across the country to absorb the unemployed. Instead of paying each man so much per day and letting him spend the money where he wished, the Bennett Government figured out that, given board, room and clothing, each man should get $5.00 in cash per month because that's all he'd have left if he had a job at the going wage of $1.50 per day. The idea was mathematically correct but wrong in principle.

The Provincial Government is able to pay large sums of money in grants for the building of roads in the Municipalities. They shouldn't spoil it by telling the M.D.'s how and where the money is going to be spent.

Now Favor Confederation

Newfoundland, Canada's newest and yet oldest province, marked an anniversary recently. March 31 was end of its fourth year in Confederation. Politically Newfoundlanders have lived under just one Canadian parliament.

When they elected seven members to the House of Commons for the first time four years ago many of them had doubts about the wisdom of union with Canada. Now, judging by public statements many of the doubts have disappeared. Two members of Parliament who had been among the opponents of union spoke of the event briefly on March 31, said they had been happy in the Parliament of Canada and were satisfied the union was for the good of Newfoundland.

NOTHING BUT THE TRUTH by Russ Arnold

Voice of the People

NATURAL GAS SERVICE

The writer of the editorial in the Lethbridge Herald, reproduced in your issue of May 8th, had little regard for fact or fairness in commenting on the supply of natural gas to the City of Saskatoon by the Saskatchewan Power Corporation.

In drawing comparisons between the rates charged for natural gas in Calgary, Edmonton and Lethbridge with those offered to Saskatoon, the Lethbridge Herald conveniently ignored two important factors. One is the fact that the source of supply is much closer to the Alberta cities and the other is that the capital costs are at least double those prevailing at the time of the Alberta installations.

The Lethbridge Herald should know, and probably does, that the estimated cost of distribution of gas in Saskatoon was arrived at not by someone sitting in a government office, but by the collaboration of experts of the highest international standing in the field of gas production and distribution. The Fish Engineering Corporation of Houston, Texas, the firm of DeGolyer and McNaughton, Geological engineers, and the Gas Machinery Company of Hamilton were retained by the Saskatchewan Power Corporation and the estimated costs were determined by the findings of these experts, supported by the calculations of the Corporation's own engineers, after the most careful economic studies and market analysis.

The charge that the people of Saskatoon "rebelled" against the proposal of the Saskatchewan Power Corporation is as ridiculous as it is untrue. The Committee of the Saskatoon city council which carried on the negotiations with the Power Corporation, and which had at its disposal all the detailed estimated costs, in its final report to the City Council said:

"The initial price of 80 cents per MCF to the average consumer cannot be considered as unfair under the existing circumstances. Your committee are satisfied that it offers a competitive fuel at 25 per cent below competing fuels at present prices." and in the concluding paragraph of its report the City Council committee added:

"Nobody will question that it is the desire of the government that gas should be distributed in the interest of the citizens of Saskatchewan."

This finding of the committee of the Saskatoon City Council, and the votes of the people of Saskatoon in the provincial election, and not the unscrupulous distortions of opposition newspapers, may be accepted as the real estimate of the residents of the Saskatchewan city of the soundness and fairness of the Saskatchewan Power Corporation's proposal to provide them with natural gas for fuel.

As a matter of fact the City of Saskatoon was offered the natural gas distribution rights in the city but decided to ask the Power Corporation to assume this function, with the provise that an independent regulatory authority be set up to which appeals regarding rates and service may be taken. The government of course accepted this provise and legislation was passed accordingly at the recent session of the legislature.

As a grant in lieu of taxes the City of Saskatoon will receive from the Power Corporation up to 5 per cent of the gross revenue from the distribution of gas in the city.

So everyone but the Liberal newspapers appear to be happy about the Saskatoon proposal.

$1 for EMBARRASSING MOMENTS

The Editor will pay $1.00 for every item published on "The Most Embarrassing Moment of My Life." To qualify, items must be true, personal incidents. Address "Embarrassing Moments." P.O. Box 4430, South Edmonton.

As we passed a young couple who were doing some heavy necking while driving, we teased them withcat calls and leers. They stopped their car and said to us: "What's so funny? Don't you know we're married?" My brother and I were embarrassed and sorry we had made fun of them.

MILTON B.

Onoway.

One day I heard a knock at the door. I thought it was my younger sister just trying to be funny, so I said, "Come in the house and don't act so stupid." You can't imagine just how I felt when one of our neighbors walked in!

SHIRLEY FREEAR.

Mayerthorpe, Alberta.

THE LIGHTER SIDE

Making Headway

"Is your husband's studio prospering?" the young bride was asked.

"Indeed, it is," was the confident reply. "He must be making lots of money, for he told me last night that they had to appoint a receiver to assist him."

Too Hard Work

"Are you going to study singing, as you intended?"

"No. I gave up the idea when the teacher convinced me it would take three years of hard work to enable me to sing as well as I thought I sang already."

Just the Thing!

He was showing a friend around his ultra-modern house.

"There are lots of points about it that I like," said the candid friend, "and there are some that I do not understand. Why, for instance, the round hole in the front door?"

"Oh, that's for circular letters."

Surprised

"Well, my dear," wrote the wife to her husband in the BEF, "did you like those mince pies I made for you?"

"Mince pies?" wrote back the husband. "I thought they were rubber heels. I'm still wearing them."

Quick Transit

Mrs. Maloney was telling her neighbor that she had just received a telegram stating that her soldier son had arrived safely in India that morning.

The neighbor was amazed by the news.

"What!" sh eexclaimed. "That seems impossible, Mrs. Maloney. The telegram must have travelled at a terrific speed."

"Sure and faith it must have," said the proud mother. "Would you believe it, when I received the envelope the gum on it was still moist!"

Certainly, Madam

Bride: "I would like to open an account at this bank, please."

Teller: "We shall be very glad to accommodate you. What amount do you wish to deposit?"

Bride (smiling:) "Oh, I mean a regular charge account, such as I have at the department stores."

The Lesser Sin

Mother—Which apple do you want, Junior?

Junior—The biggest one.

Mother—Why, Junior, you should be polite and say the little one.

Junior—Well, Mother, should I lie to be polite?

2 'Copters Airlifted To Edmonton Base

HILLSGROVE, R.I.—Two helicopters got a lift in a big cargo plane from the state airport here Thursday en route to Canada.

They are bound for Edmonton, 2,400 air miles from here, where they will be used for aerial prospecting for uranium and in surveying for map making.

GOOD WEATHER FOR DUCKS

Water Fowl Present Two-Pronged Problem To Wild Life Branch, Ottawa

The Canadian Wild Life Branch of the Department of Resources and Development is struggling with the problem of increasing the population of wild ducks and geese in Canadaj and at the same time give protection to farmers' crops.

Damage by waterfowl in the Prairie Provinces has greatly increased in the last few years, and in some areas farmers have suffered losses as high as 50 per cent in some fields, nd losses of 5 per cent to 10 per cent are not uncommon. Many of our city sportsmen who are anxious to increase the duck population, are either unaware or don't care about the heavy losses of the farmers in these areas.

During the 1930's, the duck population decreased rapidly, and for a time it looked as if they might become extinct like the passenger pigeons. During those years, I have known many farmers who plowed around ducks' nests, shot crows and magpies and encouraged the children to rob their nests. They are now beginning to wonder if they made a mistake, since the duck population has increased to such an extent that they are becoming a mesace in many districts. Fortunately, while the duck population has been increasing, we have had a cycle of good crops.

Some of the most fantastic devices for scaring ducks have been proposed by some of our city sportsmen and long-haired conservationists. Most of these are both complicated, costly and unworkable unless you are going to call in the Army and Navy to operate them. I quote one of the simpler ones recommended:

"In combatting depredations of migratory waterfowl in swathed or stooked fields of small grain, there are various types of devices which have proved to be quite effective. One of the most easily constructed of these is the ordinary scarecrow. The scarecrow should be erected or placed in the field as soon as swathing or stooking operations begin. If this device is used it is absolutely necessary that several scarecrows be erected and well distributed throughout the field. It is recommended that not less than ten scarecrows per 160 acres be erected to secure maximum genefits. It is extremely important that the field be closely watched both at daybreak and dusk to determine when or if waterfowl attempt to feed in the field in question. If depredation trouble is expected a scaring permit should be obtained well in advance of harvesting operations. At the first indication of waterfowl attemptng to feed in the field, dispersal or frightening operations should start as authorized by the permit, and preferably adjacent to or in close proximity to the scarecrows already erected. This operaton should be continued until the waterfowl have been discouraged; usually this takes about two or three days' work consisting of approximately one hour in the a.m. at daybreak and one hour in the p.m. at dusk. In any event the scarecrows should be moved every two or three days in order that the waterfowl do not become accustomed to them in the same locations. This moving operation is an absolute must if the scarecrows are to maintain their effectiveness."

And again, I quote: " . . . discourage waterfowl from committing depredation in the field in queston. In this connection experiments have shown a .22 calibre rifle using .22 long rifle ammunition to be much more effective than a shotgun in discouraging or dispersing migratory birds from a field. The whine or whistle of the bullet will frighten waterfowl at a distance of one-half mile when directed in close proximity to them if they are in the air."

Now anyone with the slightest knowledge of firearms knows how dangerous is a .22 calbre long rifle. A .22 long rifle will carry up and kill an animal or person at a half mile, whereas a shotgun might injure but would not kill at over sixty yards As far as the scaring possibilities go, they are practically nil. You can take a .22 rifle and often pick off birds one by one without scaring the rest of the flock, but the blast of a shotgun will scare ducks off a quarter section.

Here are some more recommendations made to the Department:

"1. Install scarecrows or frightening devices immediately upon the start of swathing or stooking operations, and move them every two or three days.

2. Keep a close watch at daybreak and dusk to determine when and if waterfowl are going to feed in a field. It is extremely difficult to get them out of a field after they have fed there for a few days.

3. A couple of hours' effort exerted daily for two or three days when waterfowl first start to feed in a field may well mean the difference between harvesting all of your crop or only part of it.

4. It is essential that dispersal operations as authorized by a scaring permit be carried on together with the erection of the scarecrows when depredations are about to be committed if maximum results are to be expected.

5. It is extremely important that scarecrows be removed from the field as soon as the harvest is

Freedom News Briefs

Mr. Helge Swanson had an accident while working on the road and spent a day and night in the Barrhead Hospital. Everyone was much relieved that it wasn't more serious.

Max Hauch left for London, Ontario, on Saturday to rejoin his unit, the RCEME, after spending a month and a half extended leave with his parents, Mr. and Mrs. Oskar Hauch.

Oskar Hauch hasn't been feeling well lately.

Mr. and Mrs. Bill Ryzuik of Edmonton spent the week end at Mrs. Ryzuik's parents, Mr. and Mrs. Adolph Lehman.

Mr. Alvin Lehman came home to help his dad with spring work.

Mr. Fritz Hauch is home for a couple of weeks to help his dad with the spring work.

Miss Fern Davis spent her holidays at her parent's home. She works in Edmonton.

A miscellaneous shower for Laurel Bruns and Emil Panno was held in the Freedom Hall on Sunday, June 7. They are to be married on June 16. Together may they always find good luck and happiness combined.

Congratulations to Mr. and Mrs. Wilmer Carlson on the birth of a baby boy, David Edward, born on May 24, and to Mr. and Mrs. Milton Lawrence on the birth of their baby daughter, born on May 24.

The best of luck and happiness go to the newlyweds, Mr. and Mrs. Jack Hauch, who were married on June 2. Rev. D. A. Brown officiated. The reception was held in the Freedom Hall.

Plamondon News Briefs

Mr. Phil Johnson made a business trip to Edmonton.

Mr. William Plamondon, Mr. and Mrs. Albine Gauthier, and Mr. and Mrs. Wilfred St. Jean have gone to Trail to visit friends and relatives.

Mr. Arthur Girard has formed a Boy Scout Troop. There are ten members and they have moved the former house of Charlie Johnson from the bay to use as their clubhouse.

Mr. Al Doncause has moved the former house of Mr. Standing into town.

Mrs. Doncause left for her home in Donnelly after visiting her sons, Maurice and Al Doncause, for a few weeks.

Work Round The Clock To Get Crop Seeded

EDMONTON — Farmers in the Edmonton region are working round the clock to complete seeding operations while the weather holds, Field Crop Commissioner A. M. Wilson says.

"There is nothing to delay the farmers now," Mr. Wilson said Thursday. "Moisture supplies are still good and farmers don't want any more rain until their crops are in. Then a three-day rain might be welcome."

Seeding in the area is about two weeks later than normal, he said, and is even later in southern Alberta.

He agreed with reports that wheat acreage may be reduced due to the late season. Farmers like to get their wheat planted by May 15 and if unable to do so will switch additional land to oats, barley and summer fallow, he said.

Charged With Illegal Operation

Edwin Woods of Edmonton was committed Wednesday to stand trial at the fall sitting of the Alberta Supreme Court on a charge of performing an illegal operation.

Police said the operation was performed on a 23-year-old unmarried woman who required hospital treatment afterwards. Bail was set at $3,000.

How much does a wildcat cost?

A "wildcat" is a well drilled in an area where oil has never been found. Drilling costs vary, but the average wildcat in western Canada runs to more than $100,000. One well cost $1,600,000—and found no oil!

Oil is making an increasingly important contribution to our standard of living. How many of these questions about it can you answer?

How many wildcat wells find a new oil field—
1 in 3? *1 in 7?* *1 in 23?*
The long-term average in western Canada is 1 in 23. Only 1 in 87 has found a field capable of producing as much as 2,000 barrels a day.

Since 1939 the cost of living index has risen by 85%. During that time has the price you pay for gasoline gone up by—
44%? *79%?* *103%?*
The average retail price of gasoline is only 44% higher than prewar, even with higher road taxes in all provinces.

A lot of oil has been discovered in the west since 1946. In that time have Canada's oil reserves increased—
4 times? *23 times?* *37 times?*
Reserves have increased 23-fold in the past six years. Canadian fields now supply all the prairies and part of B.C. and Ontario.

Here in Alberta, who owns oil in the ground
governments? *farmers and other landowners?*
oil companies? *other business corporations?*
Three answers are right. Oil companies do *not* own mineral rights. They are on a share-cropper basis; they do the work and take the risks of failures, paying up to 16⅔ per cent. of all oil produced to the owner of mineral rights — usually governments, which own 90% of the rights to Alberta's minerals.

Canada's growing oil industry means orders for many businesses, jobs for many Canadians. Last year Imperial's purchasing department bought equipment and supplies from Canadian firms amounting to—
$12 millions? *$56 millions?* *$110 millions?*
$56 millions. About 4,500 Canadian companies sold Imperial supplies ranging from heavy steel plates to paper clips.

IMPERIAL OIL LIMITED
oil makes a country strong
IMPERIAL ESSO PRODUCTS

Water Fowl Present 2-Pronged Problem

(Continued from Page 6)

completed; this will make available additional feeding areas in which no damage will be experenced."

If a farmer's stock is attacked by a coyote, or his hens by weasel or a skunk, he shoots them. Just why should he be asked by anybody to go to all the trouble and expense of installing these various devices to protect hs crop so somebody else can have their pleasure of shooting ducks, It is about time our wlid-life conservationists thought of that angle.

The method used last year of allowing farmers to get permits from the RCMP for others besides himself to enter upon his land and scare the ducks away by shooting at them with shotguns was the most successful to date, and should be continued.

Many farmers haven't even time to shoot the ducks themselves, and how are they going to spare a great deal more time purchasing, building and installing various gadgets and devices for scaring them away?

There should be no hesitation by the Department in giving the RCMP permission to issue permits the same as last year, and suuposing the farmer who feeds the ducks gets the first crack at them—what's wrong wth that?

Gambling Out In Edmonton

Operations of a carnival at Edmonton's Borden Park focussed attention Tuesday on the city's recent ruling prohibiting operation of such devices as wheels of fortune, coin tables and punch boards at carnivals.

Mayor William Hawrelak said complaints about the type of games operated by the carnival had been received and police would be ordered to check and enforce the games-of-chance ruling.

Sgt. William Smith of the morality department reported that to date carnival operators have heeded police warnings in this respect and no charges have been laid and no gaming devices confiscated.

Games requiring skill still are permitted under the new city code. But games of chance prohibited at carnivals are allowed in the midway during the annual summer exhibition.

Sgt. Smith said he had received complaints from carnival operators who contended Edmonton is the only major city imposing restrictions on gaming devices.

After citizens' complaints about the carnival's games were raised at Monday night's city council meeting, city commissioner John Hodgson said carnivals had been moved from one site to another until Borden Park was the only place left.

Commissioner D. B. Menzies, speaking about past troubles with carnival locations, said "there won't be any more as far as I am concerned," and Commissioner Hodgson indicated he was in agreement.

Coronation Cost Edmonton $10,000

EDMONTON (CP) — Provincial, government and civic officials last week totalled up the bill for Edmonton's Coronation celebrations.

The final figures for Tuesday's show is expected to be more than $10,000. The fireworks display alone cost in excess of $3,000.

Cost of the day's program is being borne on a 50-50 basis by the provincial government and the city of Edmonton.

City Woman Receives Letter From the Queen

Mrs. Peter Biollo, 10806 75 Ave., received a letter from Her Majesty Queen Elizabeth last week in acknowledgement of a letter and poem sent to Her Majesty by Mrs. Biollo. The poem, called "Coronation," was written by her late son, F/O P. Biollo, who lost his life in 1944 while on operations.

This poem was written when he was 13 years old, and he wrote it in honor of the late King George on his Coronation. F/O Biollo also was chosen as caddy for the Royal Party in their Canadian visit to Jasper. Her Majesty was deeply touched with this little girt and said she would cherish the thoughts behind it.

Witnesses Heard In Manslaughter Case

All Crown witnesses were called Thursday of last week in the trial of Clayton Buckle of Leduc, charged with manslaughter following the death March 25 of Albert Anderson, a passenger in his truck.

Anderson was killed when Buckle's truck allegedly sideswiped another vehicle on the Edmonton-Calgary highway near Ellerslie, throwing Anderson into the road.

Three witnesses, including two doctors, were called by the defence Friday.

Perryvale News Briefs

Miss Lorraine Kubbernus, of Edmonton is visiting at the home of her parents, Mr. and Mrs. H. Kubbernus.

Congratulations and best wishes are extended to Mr. and Mrs. W. Craswell on the occasion of their recent marriage. A welcome to Mrs. Craswell to this district is extended by all.

The Home and School Association will hold their annual meeting on Wednesday, June 17.

Miss V. Scott has as her guests her aunt and nephew, Mrs. Mitchell and David of Edmonton.

The Midget and Juvenile baseball teams journeyed to Athabasca on Sunday, May 31. The Midgets won their game but the Juveniles lost to their opposing team.

Mr. Norman Kubbernus is visiting relatives and friends in the district.

The plowing match on the Val. Breckenridge farm, Colinton, takes place on Thursday, June 18, and is sponsored by Athabasca District Agricultural Society.

Spring Outbreaks Said Subsiding

EDMONTON — Alberta health department officials reported Thursday that the annual spring outbreak of communicable diseases appears to be subsiding.

Measles, with 411 cases, heads the list of 650 cases of communicable diseases during the last week. The total showed a drop of 100 cases below the previous week.

One case of polio boosted the number of cases in Alberta this year to 19. The latest victim is a two-year-old girl at Desmaris in the Grande Prairie region.

District Men Back From Korea

EDMONTON—Five men of the Edmonton district arrived home last week on a regular CPR train carrying about 300 soldiers returning from Korea on rotation draft.

Army officials said several other Albertans were among the draft of 300 but remained in Vancouver to visit friends and relatives. They will return to their homes later.

TURNING THE OTHER CHEEK

In Sault Ste. Marie, Michigan, a train smacked James Ermatinger's automobile on the left side, spun it around and then smashed it again on the right side; the driver suffered minor injuries.

Firemen Winning Fight To Stop McMurray Fire

EDMONTON (BUP)—Chief Timber Inspector J. L. Janssen said Monday night fire-fighters appear to have checked a wild forest fire which was threatening to engulf the northern Alberta settlement of McMurray.

The fierce blaze was still burning out of control, but its advance on the village of some 1,000 inhabitants had been stopped by more than 60 "smoke-eaters" and four bulldozers.

"I haven't received any late report from there, but that would indicate the situation has not worsened, and probably has eased," Janssen said.

The fire had crackled to within five miles of McMurray Monday, and was spreading fast over a wide area. A heavy pall of smoke drifted over the village, 250 miles northeast of Edmonton, but according to latest reports the huddle of frame buildings was being saved by the fire-fighters.

Meanwhile, Janssen reported about 40 men and three bulldozers were battling a wild-running forest fire near Spurfield, west of Lesser Slave Lake on Alberta's timber frontier.

"The fire hazard in northern regions has reached seirous proportions as the area hasn't been affected by the rainfalls which are drenching the rest of Alberta," Janssen added.

Bitten By Coyote Lamb Gets Rabies

EDMONTON (BUP) — The federal health of animals division reported Monday a lamb was bitten by a diseased coyote near Grass Land, 95 miles northeast of Edmonton, and became infected with rabies.

Persons who had handled the lamb were treated against rabies as a precaution. It was the first positive case of rabies reported to federal authorities in Edmonton in more than a week.

NO ROAD

MAKES NO DIFFERENCE TO A 'JEEP'

A 'Jeep' will get you there when no other vehicle can! With 4-wheel-drive, better maneuverability and rugged build, a Universal 'Jeep' travels where there are no roads . . . climbs steep grades . . . goes through deep mud, snow and sand. Ask us for a demonstration of this tough, "go-anywhere" vehicle.

Rochester News Briefs

The bridge has been completed and now is in use. It is a very nice bridge, which will not have that dangerous peak.

Mrs. M. Ward from Edmonton spent a few days visiting in the district last week.

The ball teams will make another appearance this Sunday at Colinton. Rochester lost both games, the Juveniles 12 to 1 and Pee Wees 8 to 6.

Mr. and Mrs. Tom Gee motored from Edmonton to visit friends and relations in the district. Mrs. Julia Biglow returned to Edmonton with them to spend a few days.

Now Make Six Daily Uranium City Flights

EDMONTON — Canadian Pacific Airlines will step up its operations into Uranium City, Sask., to six flights daily, starting June 1, H. S. Collie, CPR traffic and sales superintendent here, said Thursday. The airline previously made only three flights a week.

Twin-engined Dakotas will make the 430-mile flight from Edmonton to Uranium City to handle the flow of cargo, prospectors, miners and drilling crews flocking into the northern Saskatchewan uranium area.

Blue Spruce, Flag Pole Dedicated To Queen

PERRYVALE — At a double ceremony Monday, June 1, Perryvale Central School celebrated the Coronation.

A blue spruce tree was planted and a new flagpole was dedicated to the honor of Queen and country. The students marched from the school, forming the letters "E R" They sang "O Canada".

Mr. C. Merkley, superintendent of schools for this division, then planted the blue spruce tree, assisted by little Judy Locher of Grade I and Helen Nalesnik of Grade XI. Mr. Merkley gave an inspirational address. He told the students they could make their lives "true blue like the tree." He pointed out that the tree always lifts its head toward heaven, and advised all to do as the tree—lift heads and hearts to their Creator. The students sang "The Maple Leaf Forever" following this address.

Mr. A. Aloisio, MLA, dedicated the flagpole, and, assisted by David Kubbernus and Donald Lewis, raised the flag. Mr. Aloisio spoke of the significance of the flag and pointed out how proud all can be of it. He told the students it was a symbol that binds the Commonwealth together. The freedom guaranteed under the flag is to be cherished by all citizens. He warned the students never to disgrace the flag, but to respect and honor it.

The students then sang the Coronation prayer, after which they were given their Coronation medallions.

The program closed with "God Save the Queen." A number of parents and other citizens attended to mark the historic event.

Starring Doris Day, Ronald Reagan, Frank Lovejoy. GRAND BASEBALL PICTURE.			

Costumed Dancers Seen At Celebration

ATHABASCA — The celebrations for June 2, Coronation Day, began with a parade of Veterans, Cadets, Elks and School Children from the school at 12:30 p.m.

The parade route went through the downtown section and stopped at the Cenotaph for a devotional service. Father Galbraith spoke on the importance of this occasion and our good fortune to be a member of the empire. Then Archdeacon Humphreys read the scripture and Rev. Gordon East led in prayer.

The scene of activities then moved to the parade ground on the hill, where a splendid program of dances had been arranged, under the capable direction of Mrs. Appleby, assisted by Miss Carroll and her group who made the costumes. A total of fourteen dances were presented to show the national costume and dances for the members of the Commonwealth. Each section carried a banner showing the name of the country and the national flag which were drawn by the school children, under Mr. V. Sharman's direction. The excellence of the dances together with the very appropriate costumes provided a delightful program that was the culmination to hours of hard work by the people responsible for the entertainment.

A comical ball game plus a strenuous tug-of-war provided the concluding exercises on the hill prior to the banquet.

The banquet began at 6:30 p.m. with the South Athabasca ladies in charge of the lunch. Mayor Hall acted as master of ceremonies and called for a toast to the Queen. A number of special songs were presented by representative members from the choirs of each of the three local churches. The quartette from the United Church sang "Drink To Me Only With Thine Eyes" and "Ode Triumphant." Miss Glenda Lewis, from the Anglican Church, sang "Heather On the Hill" and "In a Golden Coach." Then Mrs. Major from the Catholic Church sang "Prayer For Peace" and "Without a Song."

Mr. Aloisio spoke on the feeling of pride which all had at this Coronation of a beautiful Queen.

The guest speaker for the evening was Mrs. C. Merkley, who emphasized the splendid example that our Queen had set for the nation. First as a mother in a home, secondly as a spiritual leader, and thirdly as a representative of social service for the good of the people.

Mrs. Freeman of Camrose then presented three humorous elocution selections.

As chairman of the committe in charge, Mr. H. S. Mann thanked all those who had helped to make the day successful.

Colinton News Briefs

The main building of the property owned by Landing Motors in Colinton has been sold to the MD of Athabasca and the building has been vacated by its previous owner, C. J. R. Whiteley. The Municipal District will use this building to house the various road building equipment. In time, the municipal office may be moved from Meanook to this building but this is only rumor at the present time.

Mr. Metro Yowney, well known garage mechanic and recent employee of Landing Motors, has purchased the small garage adjacent to the building now owned by the MD of Athabasca. Mr. Yowney will carry on business there under his own name and has already opened his place for business.

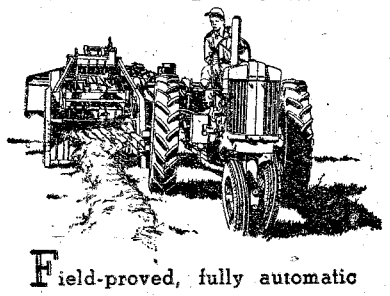
Colinton and district joined hands with Athabasca to celebrate the crowning of Queen Elizabeth II on June 2. Several veterans in uniform joined in the parade with fellow members from the Athabasca Branch of the Legion. In the pageant, Colinton School was represented by the square dance group under the direction of Mr. Blair. Earlier in the week, souvenir medals were given to all school children. Church serivce were held on the previous Sunday at St. Andrew's and at Halcrofi

Mrs. Edith Talpash, Mrs. C. Band, Mrs. Percy Cordingley, Mrs. S. C. Ward and Mrs. Hamilton left last Tuesday for Grand Prairie, where they will attend the WA Diocesan meeting.

Mr. Pete Hayward is currently employed at the department of Public Work Shops in Edmonton.

The May meeting of the Hospital Auxiliary took the form of a work meeting, when members present embroidered corners on crib sheets and linens for the hospital. More money was turned in from the Diminishing Tea, bringing the total realized to date from this effort to $176.00. The June meeting will be the last meeting before the summer recess.

BALING IS FASTER
...EASIER
WITH A
JOHN DEERE
Automatic BALER



Field-proved, fully automatic operation assures you of faster, easier baling with a John Deere Automatic Baler.

Veteran of the automatic wire-tying balers, the John Deere offers steadier going that means greater capacity . . . fewer "down" stops. Fully automatic, the John Deere bales on-the-go . . . eliminates tedious clutching and shifting to stop while bales are tied and dropped. See us soon for complete information.

Given Four Years For Stealing Rails

EDMONTON—Joseph Tonner of Edmonton was sentenced Wednesday of last week to four years on each of two charges of theft of steel rails from the city of Edmonton.

Mr. Justice Hugh John Macdonald ordered the sentences be served concurrently.

The offences were committed last August. A city employee testified he visited a stockpile August 15 and saw rails — each 60 feet long and weighing 1,600 pounds — being loaded on three semi-trailer trucks.

The truckers said they had been hired by Tonner.

Hearing of a third charge against Tonner has been adjourned to Friday to allow accused time to produce a witness. He is charged with breaking, entering and theft of an Edmonton supply company.

BURGEOIS NECESSITY

In Budapest, Hungary, after two factory nursery-school directors tried to buy chamber pots at a Government store and were told that only Japanese flower vases would be available until next year, the trade-union paper Nepszava angrily commented, "The small children of the nursery are in no position to wait that long."

Find Edmonton Man Not Guilty Of Murder

EDMONTON — An Alberta Supreme Court jury acquitted Andrew McCorrister, 35, accused of the March 16 downtown murder of Rodney Miller, 42.

The six-man jury deliberated for one hour and five minutes Wednesday before it brought back its decision of not guilty.

The Crown alleged Miller was knocked down and kicked, resulting in his death in hospital the next day.

Defence counsel W. G. E. Bloor said McCorrister came to the aid of a young Negro, Lloyd St. Clair, and had defended himself when Miller swung at him with a bottle.

Mr. Justice Boyd McBride, in a 78-minute address, told the jury before they deliberated that they must reach a verdict of either guilty of murder, not guilty of murder, or guilty of manslaughter.

Mr. Justice Boyd McBride said he agreed with the jury's finding.

Churchill Loses Place On Coronation Route

LONDON (BUP)—Prime Minister Churchill got out of line in the Coronation procession and ended up "usurping" the position of honor behind the royal coach, it was disclosed.

Horses pulling the carriages of the 11 Commonwealth prime ministers became restive as the procession reached Oxford Street.

The section became so mixed up that some carriages were moving two abreast instead of single file as expected.

Churchill instructed his driver to pull over to the curb and wait until the tangle was unsnarled. But when he resumed his ride, he found he had got back into the procession behind Queen Elizabeth's coach.

As soon as the parade reached Trafalgar Square, Churchill ordered his driver to cut out of the procession. He drove straight to his number 10 Downing Street residence while the rest of the notables went to Buckingham Palace.

When he got home, the Prime Minister telephoned the palace and explained what happened.

Finest She Ever Saw, Blind Girl's Comment

WESTMINSTER ABBEY — "It was the finest thing I ever saw," the blind girl said Tuesday.

She and nine of her friends sat strained, silent and in darkness while the power and glory of Britain passed by.

They were from the National Institute of the Blind. The Earl Marshal, the Duke of Norfolk, had turned over a block of back seats to them at the last moment before the Coronation.

"They didn't put out the form and order of the service in braille but I saw it all," the girl said.

"There were the lights and the shining Queen. There were lovely, lovely colors and brave handsome men. There was the prince, her husband, like in the story book. There were noblemen and their ladies. Dressed in scarlet. Dressed in gold. They were all dressed up. A joy to behold. And the grand, good music. The choir sounded to me like it was in the clouds. But it couldn't have been. And then the lights, the lights. I wouldn't have missed it for worlds."

The blind girl must have seen it all.

For that's the way it was.

Rosenbergs Seal Doom

OSSINING, N.Y. — Atom spies Julius and Ethel Rosenberg have all but sealed their own doom, vowing against a confession of guilt "now and forever more."

"If we are executed, it will be the murder of innocent people and the shame will be upon the government of the U.S.," the condemned pair declared in a statement Wednesday from inside Sing Sing prison.

They said they spurned a government offer to barter their lives for a complete confession of wartime espionage.

The husband-wife spy team is scheduled to die in the electric chair the night of June 18.

Authorize $2,000,000

EDMONTON—School borrowings in excess of $2,000,000 have been authorized by the Alberta board of public utilities commissioners.

Barrhead school division is authorized to borrow $311,306.

United Church Meet

EDMONTON—About 400 ministers and laymen of the United Church of Canada gathered here last week for the 29th annual meeting of the Alberta conference. Opening ceremonies included a memorial service to six United Church ministers who died last year.

DEFINITE DECLINE OF RABIES SHOWN REPORT FROM OTTAWA

OTTAWA—A round-up report of the rabies situation in Canada during the past year shows a dozen different kinds of animals had the disease including a beaver, a moose, a bear, even five cats. But the greatest concentration was among dogs with 44 confirmed as rabies sufferers. Foxes came second, with 39, and coyotes third with 18. Other animals affected were six wolves, seven bovines, three lynx and four swine.

The report issued by Dr. T. Childs, Veterinary Director-General, Department of Agriculture at Ottawa, reveals that more than half the 130 animals with confirmed rabies were in Alberta, with 89 cases. There were 18 in the North-West Territories, nine in British Columbia, six in each of Saskatchewan and northern Quebec and one each in Manitoba and Ontario. The Ontario case was a Canadian dog returned from Mexico.

Rabies in Canada during the period between June, 1952, and May 11, 1953, reached its peak February, 1953, when a total of 39 confirmed cases were reported. A tapering-off is indicated at present, with only two cases confirmed in May up until the 11th. There were 12 in April 27 in March. Dr. Childs reports approximately 63,000 animals have been vaccinated.

"From records at hand," said Dr. Childs, "it would appear that 80 people are receiving pasteur treatment as a precautionary measure following exposure to or having contact with rabid animals." No human fatalities have been reported.

Calgary Again Heads Labor Body

EDMONTON (BUP)—Robert R. Rintoul of Calgary was re-elected president of the 23,000-member Alberta Federation of Labor which is holding its 33rd annual meeting in Edmonton.

James E. Smith of Edmonton was named first vice-president and Harry Brogden of Calgary was re-elected secretary-treasurer.

Anne McLaren of Lethbridge was named vice-president for the Southern Alberta region; Robert Scott of Calgary for the central region and Harold French of Edmonton for the northern region.

Rintoul and Grant McHardy, also of Calgary, were named federation representatives to the next national conference of the Trades and Labor Congress of Canada.

FIRES UNDER CONTROL

J. L. Janssen, chief Alberta timber inspector, reported six forest fires burning unchecked last week in the McMurray area are under control.

Mixed Drinking Return Asked

The Alberta Federation of Labor has called for immediate reinstatement of mixed drinking in Calgary and Edmonton.

A resolution approved Wednesday at the close of the AFL's three-day annual convention here charged that the people of Calgary and Edmonton are still "arbitarily deprived" of the democratic privilege of enjoying a glass of beer with wives, husbands and friends in the hotel beverage rooms of the two cities.

One delegate suggested that confinement of mixed drinking to rural areas resulted in increased highway accidents.

Referring to Premier Manning, Joseph Cherrington of Edmonton said that several years ago he had called the premier a dictator for his attitude on the question of mixed drinking and "he hasn't changed yet."

Queen Triumphantly Tours London Streets

LONDON—Housewives of London's drab working-class districts Thursday hailed their radiant queen with admiring shouts, "Oh, aren't you lovely," as the newly-crowned monarch drove through northwest London.

The Queen wore a navy blue costume, edged with white, and a smart, white, close-fitting hat for the second of her series of tours of London which will give her subjects a chance to see their sovereign "close-up."

Beside her in her open limousine rode the Duke of Edinburgh in morning clothes. Both were so smilingly happy that their good humor was infectious.

A crowd of more than 50,000 saw them leave Buckingham Palace in a Daimler limousine with its top down. Their cheers of acclaim were an echo of the frenzy of the Coronation 48 hours earlier.

All along the route through Chelsea, Fulham, Hammersmith, Hampstead, Kensington, Paddington, St. Marylebone and St. Pancras it was the same.

London seemed reluctant to close the magic of the Coronation season. The mood everywhere was to keep the celebrations going as long as possible.

The entire route of the Queen's drive was lined with window boxes filled with flowers.

There were home-made signs reading "God Save The Queen." Bunting was strung along the streets in a display so fervent, if less resplendent, than that along the big boulevards Tuesday.

The Queen gave another state banquet for visiting royalty and distinguished guests Thursday night in Buckingham Palace. About 250 guests attended. Late in the evening, the Queen and the Duke of Edinburgh appeared on the balcony of the palace to the thundercus cheers of some 40,000 persons gathered below.

Price Of Eggs Up In Edmonton

Edmonton produce houses last week advanced the price of the two top grades of eggs, four cents a dozen in the face of declining production and supplies.

Outside demand absorbed all surplus of A large and A medium eggs. That put top prices to producers at 44 cents with usual two-cent spread on the next grade while small A's remained at 34 cents.

However, no definite trend was established in prices to the consumer.

Huge Alberta Wheat Area Lost By Rains During Seeding Period

Well over half a million acres of wheat has been lost in Alberta this year due to the heavy rains during the seeding season.

According to the latest report from the Alberta Wheat Pool only 89 per cent of the intended 6,111,880 acres of wheat has been seeded. Now it is too late for sowing and farmers have switched to coarse grains.

Worst hit in the province was the large central district around Calgary and extending south to Carmangay, east to Brooks and north to Trochu. About 300,000 acres in that region have been lost to wheat.

In the Brooks district 71 per cent of the crop has been sown, in the Vulcan district 78 per cent, and in the Irricana district 83 per cent. Last year in the Irricana district 833,000 acres of wheat were grown.

Good seeding progress has been made, however, in Peace River territory and the wheat there is about finished. Seeding of all crops is being completed in the main wheat-growing district of the province in the southeastern corner which last year contributed 876,000 acres of wheat.

Alberta Wheat Pool estimates that already the barley crop seeded has been increased by one-twentieth more than last year when 3,636,000 acres grew barley. This crop is proving more popular than oats with an estimated acreage of 98 per cent of last year's 2,587,000 acres.

The most widely grown variety of wheat in the province will again be Thatcher which will represent over half the total crop. Marquis variety has dropped in favor from 12.9 per cent in 1951 to 9.8 per cent this year.

To date about half the coarse grains have been sown in the Calgary district, but elsewhere the seeding operations approach completion.

Brazil is hopeful of completing trade pact with Argentina.

The Hansen and Hoflin families spent Coronation Day at Johnson Lake.

Dogs Still Roaming Around In District

ATHABASCA — Dogs are still being allowed to roam at large throughout this area. All dogs should be tied. In the event of anyone being bitten by a dog, the dog should be secured, and kept under observation for two weeks. If the dog has rabies it will usually die during the above period. This preiaution is important as it may be the means of saving a person from having to have anti-rabies treatment, which necessitates an injection a day for 14 days.

On no account should the dog be shot immediately after biting anyone.

The greatest precautions should be taken when looking after sick cattle. Rubber gloves should be worn when giving medicines. Several people have had to have anti-rabies treatment because of failing to observe this simple precaution.

All bite wounds and hands contaminated with saliva of suspected animals should be thoroughly washed with strong soap and water.

Rabies is still present in Alberta.

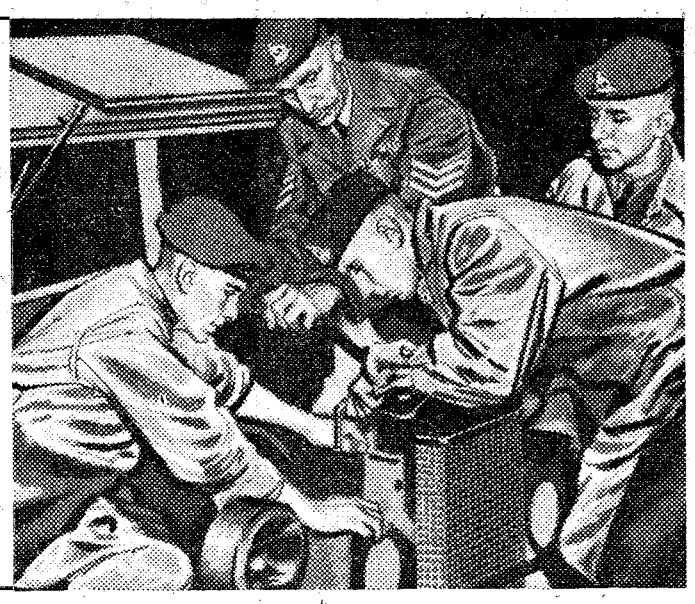
FOR YOUNG MEN OF 16



Trades Training for an Army Career Under the Soldier Apprentice Plan

The Canadian Army Soldier Apprentice Plan offers a unique career opportunity for young men of 16 who want a good future. 3-way programme trains Soldier Apprentices for careers as skilled soldier tradesmen.

- Trades training *under expert instructors in one of 16 skilled trades.*
- Academic training *in physics, chemistry, algebra, English, etc.*
- Military training *as a Canadian Soldier.*

Soldier Apprentices follow a balanced programme of study, work and play; live in separate residence at Army Schools under supervision of military and civilian instructors. It's a healthy, beneficial course of training that prepares Soldier Apprentices for fine careers.

Soldier Apprentices are eligible for all Army benefits, pensions and the 30 days annual leave. They receive half pay while 16 but upon reaching their 17th birthday they receive full pay with extra group pay as they qualify.

The young man who is interested in the happy, healthy and purposeful life of the Soldier Apprentice *should investigate* immediately.

The coupon below will bring you full details without any obligation.

General Officer Commanding, A-15
Western Command,
Kingsway Avenue, Edmonton, Alta.

Please send me the booklet on the Soldier Apprentice.

Confession?—Ask The Man Who Goes There!

Catholics go to Confession to a priest for one reason only: to obtain divine forgiveness for their sins.

But why, you ask, go to a priest? Why not confess our sins directly to God?

Ask the man who goes to Confession and here's what he will tell you: Sin is an offense against God, it must be forgiven by God. It is God, not man, who determines how forgiveness must be obtained, Christ plainly pointed this out when He empowered His Apostles and their successors to forgive sins or to refuse forgiveness.

"Whose sins you shall forgive," Christ said, "they are forgiven them; whose sins you shall retain, they are retained." (John 20:21-23). Thus Christ authorized the Apostles, and their successors, to pardon or to deny pardon as they judged the sinner worthy or unworthy. To do this they had to know what they were forgiving ... the secret dispositions of the sinner ... his sorrow and willingness to repair the wrong done to his neighbor by his sins. Who could make this known but the sinner himself—and what is this but Confession?

But Confession—the Sacrament of Penance—is only one of the seven Sacraments Christ left in His Church. Yes, seven—no more and no less! Christ's religion is not merely a message to be accepted, but a life to be lived—from the cradle to the grave. Christ's seven Sacraments are the answer to man's seven basic needs.

Man is born, but he needs to be reborn a Christian in the Sacrament of Baptism. He is nourished, but he needs Christian nourishment in Holy Communion, the Sacrament of the Eucharist. He grows, but he needs to grow and be strengthened in Christian life by the Sacrament of Confirmation. He is cured of disease, but he needs a remedy for sin, so destructive of Christian life, and this he finds in the Sacrament of Penance.

Man lives in society which needs officials to promote the common good—and for his life in the Church, he finds officials provided by the Sacrament of Orders. He perpetuates the human race in marriage, which Christ made the Sacrament of Matrimony. And at death, he needs consolation and strength for the last dread hour which he finds in the Last Anointing—the Sacrament of Extreme Unction.

Would you like to know more about each of the seven Sacraments? How they can help you to meet the seven basic needs of your life? Then write today for a free pamphlet which gives important information concerning them. Ask for Pamphlet No. 5-N.

GLAD TO HAVE 'EM, TOO!

Married Women Important Part Of Teaching Force In Alberta

EDMONTON—A generation ago, 80 per cent of the teachers were single women, but in Alberta today only 28 per cent of the teachers are single women. Twenty years ago it was considered almost a crime for a married lady to hold down a teaching job. But not today.

This is so remarkable a shift of emphasis that it constitutes almost a miracle. Does it mean that women are leaving the profession? No. On the contrary it is fashionable today for the glamorous school teacher — and what school teacher nowadays is not glamorous — to enter matrimony while remaining in the teaching profession. In at least one large Canadian city the school board has an arrangement whereby married women may be granted extended maternity leave on request. It is reported that their pupils hail their return with delight and rush to show them the progress that has been made in school in the interval.

Statistics recently released from Ottawa indicate that there will be a sharp increase in the school population all over Canada in the next ten years, particularly in the western provinces, Alberta, Manitoba and British Columbia. Thousands of new rooms will have to be built, and thousands of additional teachers will be required to staff them. Have you visited one of these new schools lately? If so you will agree that nowadays the most attractive building in town is likely to be the school. It is bright, well ventilated, beautiful as well as practical in its structure, and adapted not only as a sat of learning but in many communities as a centre for cultural and social purposes for the citizenry. No wonder the children like to go to school, and no wonder they weep tears of frustration when they have to stay home! No wonder the ratepayers practically alway pass the vote to build the new schools.

A national emergency in education is almost upon us. A resistless horde of children will soon be decending in a mass invasion upon our schools, and woe to that community which cannot supply the accommodation and staff the school with an adequate supply of teachers. The only untapped source of teacher supply is the reserve of married women who already have teaching certificates and a background of experience in the classroom. Already married women are being induced in large numbrs to re-enter the teaching profession. Married women are fond of children; many of them have children of their own, and know more about children and what is good for them than any other part of the community can possibly know. In the schools of the immediate future it is fully expected that one out of every two new teachers employed will be married women. Married women are the logical source of supply for the augmented school enrolments now imminent.

There are at present 7,000 teachers actively engaged in Albrta classrooms. Statistics indicate that by 1966 Alberta will be using 12,000 teachers.

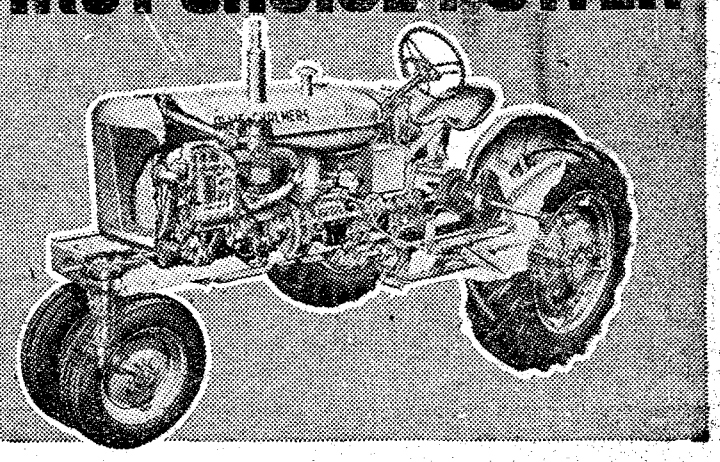
The inside story of FIRST CHOICE POWER



Look at the inside of the WD Tractor—see what makes it today's first choice in tractor power.

PLENTY OF PULL for heavy jobs such as plowing with 3 full-size bottoms. Traction booster puts full engine power to work.

PUNCH IN THE PTO for harvesting heavy crops. Instant governor opening, quick carburetion, and two-clutch control handle overloads easily.

MORE FOR YOUR MONEY. You get work power equal to larger tractors at lower first cost, lower operating cost and less maintenance.

Come in and see the WD. Let us show you some of its many engineering advantages.
